DETAILED ACTION

Claim Rejections - 35 USC § 112

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 2, "a first transistor" has already been recited in claim 1.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 5-8 and 12-20 are rejected under 35 U.S.C. 102(b) as being anticipated by D'Angelo (USPN 6,166,530).

With respect to claims 1-3, 5-8 and 12-16, D'Angelo discloses, in Fig. 5, a circuit comprising: "a power device (102 and 114)"; "a load (104)"; "a current sense circuit (148-152)"; "a first transistor (110)"; "a second transistor (one or more of 128-136)"; "a comparator (140-146)"; and "a level shifter (154)", all connected and operating similarly as recited by Applicant.

With respect to claims 17-20, clearly the above circuit to D'Angelo will provide the recited method.

Art Unit: 2816

Claims 4 and 9-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
